

Dear Parents,

We are so excited to offer another season of Ignite After School Program to your student! We are looking forward to a great year of learning, growing and fun!

At Ignite our goal is to provide all teens that walk through our doors with a safe, positive space where they can build relationships with friends and positive role models. Spending time with others and participating in our engaging activities can help foster a sense of belonging, build self-confidence, and promote positive mental health. Ignite offers opportunities for students to engage with local businesses, experience other communities, and learn valuable skills for their future. We are hopeful that this program will help teens become positive contributors to Santa Paula's community and beyond!

Ignite is available to students grades 6-12 and is completely free. We offer homework help, trainings, recreation equipment, free school supplies, computer lab, snacks and dinner on Wednesdays. We collaborate weekly with our sister program in Fillmore One Step A La Vez, and visit their program site every other week. We also take field trips to educational and fun places!

An important service we offer is access to mental health services. If your student is struggling with mental health issues we are able to connect you with service providers or pay for services. Please do not hesitate to reach out with any concerns, we are here to support you as well as your student.

If you have any questions or concerns please contact our parent liaison Veronica Nava at (805)202-1100 or email us at ignitesantapaula@outlook.com.
